

CLIMATE ACTION

The title 'CLIMATE ACTION' is written in large, bold, orange capital letters. The word 'CLIMATE' is on the top line, and 'ACTION' is on the bottom line. A faint, blue, cursive-style 'Climate' is written behind the main text. In the middle of the word 'ACTION', the letter 'I' is replaced by a green globe with black grid lines. To the right of the globe is a red thermometer with a black scale and a red bulb.

SDG 13 seeks to implement the commitment to the United Nations Framework Convention on Climate Change and further operationalising the Green Climate Fund. It aims to strengthen countries' resilience and adaptive capacity to climate-related hazards and natural disasters by integrating climate change mitigation and adaptation measures into national strategies, policies and planning.

This also requires improved education, awareness-raising and capacity on climate change mitigation and adaptation. As the poorest and most vulnerable people are affected the most by climate change impacts, SDG 13 calls specifically for raising capacity for climate change-related planning and management in least developed countries. The EU focuses on monitoring progress in climate mitigation efforts, in reducing climate impacts and in supporting climate action.
